This is not pre-eminently an age of graft. Graft has always flourished. It is an era of remarkable activity in uncovering graft.

The novelist who writes a story of American millionaires may have some difficulty in deciding which one to take as the model for his villain.

Torments of Tetters and Eczema Alleviated.

The intense itching characteristic of eczema, tetters and like skin diseases is instantly alleviated by applying Chamberlain's Salve and many severe cases have been permanently cured by its use. For sale by all druggists.

And now comes a scientist who predicts that the human race will eventually die of thirst. Does this mean universal prohibition?

The fact that Greece and Roumania have severed diplomatic relations is seemingly lost in the shuffle of greater international events.

An Awful Cough Cured.

"Two years ago our little girl had a touch of pneumonia, which left her with an awful cough. She had spells of coughing, just like one with the whooping cough and some thought she would not get well at all. We got a bottle of Chamberlain's Cough Remedy which acted like a charm. She stopped coughing and got stout and fat," writes Mrs. Ora Bussard, Brubaker, Ill. This remedy is for sale by all dealers.

The Arkansas mob that lynched the wrong man held a mass meeting several days later and formally passed resolutions of sympathy and an apology to the unfortunate man's widow.

Sick Headache Cured.

Sick headache is caused by derangement of the stomach and indigestion. Chamberlain's Stomach and Liver Tablets correct these disorders and effect a cure. By taking these tablets as soon as the first indication of the disease appears, the attack may be ward off. For sale by all druggists.

Now would be a good time for Uncle Andy Carnegie to come forward and voluntarily confess the amount of his philanthropic contribution to the republican slush fund last fall.

Wounds, Bruises and Burns.

By applying an antiseptic dressing to wounds, bruises, burns and like injuries before inflammation sets in, they may be healed without maturation and in about one-third the time required by the old treatment. This is the greatest discovery and triumph of modern surgery. Chamberlain's Pain Balm acts on the same principle. It is an antiseptic and when applied to such injuries, causes them to heal very quickly. It also allays the pain and soreness and prevents danger of blood poisoning. Keep a bottle of Pain Balm in your home and it will save you time and money, not to mention the inconvenience and suffering such injuries entail. For sale by all dealers.

The Chicago Tribune kindly explains "How to Live on \$1,000,000 a Year." The directions seem plain enough, but what's the use of being stingy with ourselves while times are prosperous? We cannot take our money with us when we die.

The battleship Oregon, which did such gallant and effective service at Santiago, is already spoken of as antiquated and well-nigh worthless. Our war vessels don't go out of service quite so suddenly as Russia's but they seem to go fast enough.

Nothing to Fear.

Mothers need have no hesitancy in continuing to give Chamberlain's Cough Remedy to their little ones, as it contains absolutely nothing injurious. This remedy is not only perfectly safe to give small children, but is a medicine of great worth and merit. It has a world wide reputation for its cures of coughs, colds and croup and can always be relied upon. For sale by all dealers.

are these lines from J. H. Simmons, of Casey, Ia. Think what might have resulted from this terrible cough if he had not taken the medicine about which he writes: "I had a fearful cough, that disturbed my night's rest. I tried everything, but nothing would relieve it, until I took Dr. King's New Discovery for Consumption, Coughs and Colds, which completely cured me." Few person know why August has thirty-one days. Don't Borrow Trouble.

It is bad habit to borrow anything, but the worst thing you can possibly borrow, is trouble. No Fear of the Law.

The daily exposure of graft and corruption, not only in political places, but in financial institutions, in many instances the criminal law being flagrantly violated and in others so closely skirted that the offenders are morally as guilty as though they had broken all the statutes, shows that the American people, and especially the rich and the politically powerful, have but little regard for the law. The experience of others has taught them that it is not a particularly hard case undertaking to "take chances

with the law." The man who wrecks a bank, squanders the money of policy holders in an insurance company, of "grafts" in a political office, knows that, even if he is arrested and tried for the offenses, a thousand technicalities will be set up in his case and that he will have a multitude of maudlin sympathizers, and if he is convicted the chances are a hundred to one that he will be pardoned. Then, again, he knows that the few weeks or months that he may have to spend in prison will be made as delightful and comfortable for him as if he were in his own home. Thus the fear of the law is no longer in the hearts of the rich and powerful, and the result is an era of graft and corruption that is appalling. The law's delay and public sentiment are responsible for this condition of things.

In England the people "take no chances with the law," and the result is that public scandals such as have been paraded for months before the American people are practically unknown. There the law is enforced. A criminal is arrested quickly and tried quickly and money, or social, or political influence are powerless to save him. Once convicted there is little hope of executive clemency or pardon. He knows that when he goes to prison he will serve his time if he lives, and that he will be shown no special favors while he is a prisoner. While this certainty of punishment does not prevent the lower criminal classes from violating the law, it acts as a powerful deterrent to those higher up. In England, if the president of a life insurance company should squander the money of the institution, or permit it to be done, as has been done in America, he would be held to a quick account-

THE CHANGE OF LIFE

INTELLIGENT WOMEN PREPARE

Dangers and Pains of This Critical Period Avoided by the Use of Lydia E. Pinkham's Vegetable Compound.

How many we can realize that the most critical period in a woman's existence is the change of life, and that the anxiety felt by women as this time draws near is not without reason?

If her system is in a deranged condition, or she is predisposed to apoplexy or congestion of any organ, it is at this time likely to become active and, with a host of nervous irritations, make life a burden.

At this time, also, cancers and tumors are more liable to begin their destructive work. Such warning symptoms as a sense of suffocation, hot flashes, dizziness, headache, drowsiness, palpitation of the heart, timidity, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness and inquietude are promptly heeded by intelligent women who are approaching the period of life when woman's great change may be expected.

Lydia E. Pinkham's Vegetable Compound is the world's greatest remedy for women at this trying period, and may be relied upon to overcome all distressing symptoms and carry them safely through to a healthy and happy old age.

Lydia E. Pinkham's Vegetable Compound invigorates and strengthens the female organism, and builds up the weakened nervous system as no other medicine can.

Mrs. A. E. G. Ryland, of Chester-town, Md., in a letter to Mrs. Pinkham, says:

"I had been suffering with falling of the womb for years and was passing through the change of life. My womb was badly swollen. I had a good deal of soreness, dizziness, headache, and was very nervous. I wrote you for advice and commenced treatment with Lydia E. Pinkham's Vegetable Compound as you directed, and I am happy to say that all those distressing symptoms left me, and I have passed safely through the change of life a well woman."

For special advice regarding this important period women are invited to write to Mrs. Pinkham for advice. It is free and always helpful.

ability. But in this country we are willing to take chances with the law.
